## **DETAILED ACTION**

### ***Priority***

Acknowledgment is made of applicant's claim for foreign priority under 35 U.S.C. 119(a)-(d). The certified copy has been filed in parent Application No. 09/86551, filed on 05/29/2001.

### ***Specification***

The objection of the title is withdrawn in light of applicant's amendment on 07/15/2002.

### ***Allowable Subject Matter***

The following is an examiner's statement of reasons for allowance:

In regards to claim 1, prior art does not disclose air that is introduced in the annular space via the air inlet passage to cool coils of the stator and the air is discharged to an outside from the cooling fan blades that is provided on a side wall facing away from an engine side wall by the cooling fan blades, in combination with a stator that comprises a plurality of cores and coils, the cores being positioned radially and each of the cores having a coil that is wound around ,with the radial outer ends of each of the cores projecting in the circumferential direction so as to be close to each other and form air passages between adjacent coils with air circulating through the air passage and a shield for covering the entrance to the air gap formed on an end face of a stator facing an inlet passage. In regards to claim 6, prior art does not disclose an air flow regulating means provided at least at one axial end of the outer periphery of the

Art Unit: 2834

stator for suppressing entry of air that is guided through the air inlet passage, into the air gap.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
